

On behalf of the Community Clubhouse Management Committee, the Windansea Surf Club respectfully request your financial support to assist us to complete the Community Clubhouse in Buderim Street, Currimundi.

The Clubhouse will be a shared community space, run by a volunteer management committee including representatives from the Windansea Surf Club, the Disabled Surfers Association, Indigenous Surfers Chapter, Women on the Water, the Moffateers and the Caloundra Malibu Club. The Clubhouse will provide a general meeting place, a community asset, and a place to build community. This is an opportunity for the Surfing community of Caloundra to become custodians of their own place and to advance the sport of Surfing in a way that is unprecedented in Australia.

Today, the Clubhouse is near completion, but the volunteer builders need \$20,000 to complete the build. Funding has run short due to a protracted court case to prove the importance of promoting the sport of surfing here on the Sunshine Coast, which has cost the club a considerable amount of money. When up against the odds, club members and Harcourts Caloundra financially contributed to the court case, alongside kind pro bono support from expert witnesses and our planning lawyer Andrew Davis, that helped to offset costs. Having overwhelming support from the Caloundra community, in February 2021, the court case went in favour of the Windansea Surf Club.

Today, for Windansea to finish building the clubhouse they need your generous financial donation to do so. 100% of your gift will immediately go to finishing the building. Windansea wishes to thank you in anticipation of whatever support you can muster.

You can make donations directly to the '**Clubhouse Account**' at:
Bendigo Bank BSB: 633 000 ACCOUNT No: 154 958 276

What is the Community Clubhouse?

Robert “Bushy” Mitchell, who has achieved many things in his Surfing lifetime so far, described **the opportunity this clubhouse represents** best when he penned the following in his letter of support:

A dedicated **clubhouse will greatly expand the opportunities to advance the sport of Surfing in Caloundra** by offering a **place to facilitate club meetings, presentations, events & competitions, run training workshops and activities, engage with local schools, hold community workshops and mentoring activities** as well as uniting our Surfing community.

[The clubhouse] will be a good place for young people, local school lessons and a place for minority groups. The clubhouse will support the teaching of Surfing culture and history to a younger generation. **It will promote physical activity, family activity, outdoor lifestyle and recreation as well as promote environmental awareness and care for the environment.**

Younger members, both current and future, will have a place to learn and study, judging, coaching and surf skills.

A place that allows other like-minded organisations a footing. A place they too can feel at home. A place for the community. A place that historical knowledge can be handed down, displayed and most importantly a place to care for. **Once in operation, the clubhouse will be a hub for the Caloundra Surfing community.**

— Robert “Bushy” Mitchell past Club President & Life Member,
SC Surfing President, Surfing Queensland President,
Surfing Queensland CEO, Surfing Australia President and Chair,
Billabong Events Manger and
lifetime contributor to the sport of Surfing.
